### POOL FENCE AFFIDAVIT

I am aware of the requirements for the enclosure and protection of a pool in accordance with Section 3109 of the International Building Code (IBC) titled *SWIMMING POOL ENCLOSURES AND SAFETY DEVICES*, which has been approved and adopted by Pickens County, and take full responsibility as the property owner for ensuring the pool fence and all other required safety and warning devices are constructed and installed in accordance with these requirements.

All swimming pools must conform to the International Building Code (IBC). All swimming pools must be enclosed by a barrier/gate. All doors with direct access to the pool, where the wall acts as a barrier to the pool area, shall be equipped with an alarm. All barriers/gates and alarms will be inspected at the time of the final pool inspection. The barrier/gate and alarms MUST be installed and be in place before the final inspection is requested.
